They knew!

Editor,

Multitudes of people are shocked by the news that the Soviets shot down the unarmed jumbo jet carrying some 269 people. Why would they do this? The interceptor planes followed the air liner for about 2.5 hours, most of it over international water.

In this modern day and age of rapid communication they had sufficient time to contact Andropov for instructions. They knew what plane it was and who was on board, and the repercussions it would cause on the international scene if it was shot down. The communists did not like Congressman Larry McDonald for many reasons.

He was a member of the Armed Services Committee in Congress and was perhaps the top expert in Congress on international terrorism. He was the head of "Western Goals Foundation" which seeks to expose the communists as the beasts that they are. In the "Western Goals Report for October 1982" was printed the following news item.

The Moscow publication "Sovetskaya Rossiay" has published a "left handed" tribute to the Western Goals Foundation and to "Western Goals Report."

Stating that "the activity of the anti-Communist international organization is acquiring an even more dangerous character," and noting the presence of many distinguished American anti-communists on our advisory board, and correctly noting that Western Goals is "subversive" to international communism, the Soviet publication wrote:

"What sort of functions are carried out by this apparatus? It gathers and processes information 'concerning the intentions, military potential, and capabilities of the USSR,' as it affects 'effectiveness of the new American politics,' and is concerned with the enlightenment of youth in the spirit of 'in the pursuit of western goals.' "

The Soviets find it quite upsetting that our materials have been utilized by Radio Free Europe and Radio Liberty, and especially that among our priorities is "indoctrinating the youth of the West with a spirit of anti-socialsim."

Western Goals Foundation is dedicated to the concept: "so to rebuild and strengthen the political, economic and social structure of the United States and western civilization so as to make any merger with totolitarians impossible." They know that the communists brag that they will control the world and take away our freedoms, and our form of government and seek to enslave us.

When will the American people wake up to the type of people we are dealing with? I am speaking about the communists, not the Russian people in general. You cannot and must not trust them to keep any treaty.

The Aug. 31 issue of "The Review of the News" reported the communist confession that Defense Minister Dimitri Ustinov, who is in charge of the Red Army and its intelligence branch known as the GRU was to be the "fall guy" who ordered Ali Acga to assassinate the Pope. This was to take the pressure off of the KGB with Andropov at its head at the time.

Anyone who seeks to expose and discredit the communists is an enemy of the communists. The communists have such a low regard for human life that they murder, torture and imprison hundreds of thousands of innocent people, so what is a mere 269 people if they can silence an important enemy.

Western Goals Foundation produced a documentary video tape film "No Place to Hide — The Strategy and Tactics of Terrorism." It exposes how the communists train and direct terrorists for worldwide terrorism. The film is to be shown nationwide Sunday, Sept. 11 on the Turner Broadcasting National Cable network, WTBS, at 5:05 p.m. and 9:05 p.m.

If any group of people cannot manage to see the film please call 269-0226 or 268-0347 to arrange for a private showing of the film at no cost.

Sincerely,
Donald Throp
